Material Safety Data Sheet

Section I - Chemical Product and Company Identification

Manufacture's Name/Address:
Cosmetic Essence Innovations
2162 Route 35 South
Holmdel, NJ 07733

Emergency Telephone Number:
(800) 424-9300

Information Telephone Number:
(201) 941-9800

Product Name:
PARLUX PARIS HILTON BODY SPLASH

Proper Shipping Name:
Perfumery products with flammable solvents

Section II - Composition/Ingredients

The identity of individual components of this mixture is proprietary information and is regarded to be a trade secret. However, based on hazard determination of contained ingredients present at a concentration greater than one percent, this mixture presents the following hazards:

NFPA Rating System (Scale 0-4 where 4=high degree of hazard):

Health=1, Flammability=3, Reactivity=0

Section III - Hazard Information

Emergency Overview

Physical State: Clear liquid.

Type of Hazard: Flammable Liquid

Potential Health Effects

Vapor may be irritating to eyes, nose, throat, and respiratory tract.

Prolonged ingestion at high levels may cause damage to the liver and reproductive system. It may also cause anesthesia, dizziness, drowsiness, headache, loss of muscle coordination, nausea, vomiting and mental confusion.

Breathing high concentrations of vapor may cause anesthesia, dizziness, drowsiness, headache, loss of muscle coordination, nausea/vomiting and mental confusion.

Prolonged ingestion at high levels may affect the reproductive process.

May be irritating to skin and eyes.

NO SUBSTANCE WITHIN THIS MIXTURE HAS BEEN LISTED BY NTP, IARC OR OSHA AS A CARCINOGEN OR POSSIBLE CARCINOGEN.

Section IV - Emergency and First Aid Procedures

INHALATION EXPOSURE: Remove to fresh air environment. If irritation continues, contact a physician.

EYE CONTACT: Flush eyes with copious amounts of water for at least 15 minutes. If irritation continues, contact a physician.

SKIN CONTACT: Remove contaminated clothing. Wash affected area with copious amounts of water for at least 15 minutes. If irritation continues, contact a physician.

INGESTION: Do not induce vomiting. Give copious amounts of water to dilute. If irritation continues, contact a physician.

Section V - Fire Fighting Measures

FLASH POINT: Below 69'F. (21 C.)

EXTINGUISHING MEDIA: Foam, carbon dioxide or dry chemical.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Closed containers may build up pressure if exposed to heat (fire). Vapors from explosive mixtures with air and may travel to a source of ignition and flash back.

HAZARDOUS COMBUSTION PRODUCTS: Burning liberates carbon monoxide and carbon dioxide.

FIRE FIGHTING PROCEDURES: Use standard procedures and preferred extinguishing media as stated. Cool fire exposed containers with water spray.

Section VI - Spill Release & Waste Disposal Procedures

Contain spilled material. Avoid open flames or other sources of ignition. Avoid inhalation of vapors. In confined poorly ventilated areas use of NIOSH-approved respiratory protection may be required.

Cover with inert non-combustible absorbent material and remove to an approved disposal container. Dispose of in accordance with local, state and federal regulations.

Section VII - Storage and Handling

It is recommended that this material be stored in a cool, well-ventilated area.

NOTE: Health studies have shown that exposure to chemicals pose potential health risks which may vary from person to person. Therefore, exposure to liquids, vapors, mists, and/or fumes should be minimized.

Section VIII - Exposure Controls and Personal Protection

EYES: In general, the use of safety glasses is recommended. If the material is to be handled in a manner where splashing may occur, the use of splash goggles or face shield is recommended.

RESPIRATORY: In well ventilated areas, respiratory protection is not normally required. In confined, poorly ventilated areas the use of NIOSH-approved respiratory protection may be required.

EQUIPMENT & APPAREL: The use of chemical resistant gloves is recommended. Acceptable industrial hygienic practices should be maintained.

VENTILATION: Provide adequate ventilation. Use local exhaust fan if necessary.

Section IX - Physical & Chemical Properties

APPEARANCE:	Clear liquid. Free of foreign matter.	ODOR:	Fragranced
SPECIFIC GRAVITY @ 25℃:	0.839 - 0.869	VAPOR PRESSURE:	40.88mm/Hg @ 20/C.
BOILING POINT:	N/A	VAPOR DENSITY:	N/A
MELTING POINT:	N/A	WATER MISCIBILITY:	N/A
Percent Wt./Wt. VOC:	73.944	Volatile Constituent:	SD Alcohol 40-B 190 Proof
Percent Fragrance:	3.00%	% Volatile Constituent:	80%

Section X - Stability and Reactivity

STABILITY: Presents no significant reactivity hazard. Normally stable even at elevated temperatures and pressures. Not pyrophoric nor reactive with water. Does not undergo explosive decomposition, is shock stable, and is not an oxygen donor. Does not form explosive mixtures with other organic materials. Will not undergo hazardous exothermic polymerization.

INCOMPATIBILITY (MATERIALS TO AVOID): Avoid strong oxidizing agents.

Section XI - Toxicological Information

Acute Toxicological Data: None Known

Carcinogenicity: No data available

Neurotoxicity: No data available

Reproductive effects: No data available

Epidemiology: May cause slight rash or irritation upon long term exposure.

Section XII - Ecological Information

Ecotoxicity: No data available.

Environmental Fate: No data available.

Physical/Chemical: Product is known to be stable under normal conditions.

Please refer to Section IX for product data.

Section XIII - Disposal Information

Ignitible hazardous waste, D001, according to Federal RCRA regulations (40 CFR 261).

Disposal should be in accordance with local, state and federal regulations.

Section XIV - Transportation Information

Sea/Air: Perfumery Products

Land: Perfumery Products

Section XV - State, Federal and International Regulatory Requirements

DOT Description: Perfumery products with flammable solvents
Proper Shipping Name: Perfumery Products, UN1266, 3, PGII
Applicable Labeling Regulations: 21 CFR 201
DOT/EPA Hazard Class: Flammable Liquids - Hazard Class 3
EPA-SARA Title III Section 13: Toxic Chemical: Not Applicable

Section XVI - Other Information

SARA 313: NONE

NEW JERSEY RIGHT-TO-KNOW ACT:
This product contains the following chemicals subject to the reporting requirements of the NEW JERSEY RIGHT-TO-KNOW ACT.

CHEMICAL	CAS NO.
DENATURED ETHYL ALCOHOL	00064-17-5

CANADA WHMIS REGULATION:
Health Hazard Classification: SUBDIVISION B DIVISION 2 CLASS D
Flammability Classification: CLASS B DIVISION 2 CLASS 3

EEC RISK LABELING STATEMENT:
Classification in Accordance to EC Regulations 67/548 and 88/379:

DEPARTMENT OF TRANSPORTATION LABELING REQUIREMENTS (49 CFR 171,172,173,175)
DENATURED ETHYL ALCOHOL

THE INFORMATION ON THIS MATERIAL SAFETY DATA SHEET WAS OBTAINED FROM CURRENT AND REPUTABLE SOURCES. Fax 973/472-9258

December 6, 2012

Ms. Cheryl Silber
PARLUX
5900 North Andrews Ave.
Ft. Lauderdale, FL 33309

Dear Ms. Silber,

Please be advised that for the following Fragrance Resources, Inc. fragrance:

Paris Hilton Fragrance 04F/4017 for body spray

The total vapor pressure of this fragrance is 0.078 mm Hg @20°C
The total VOC's for this fragrance is 6.06%

If I can be of any further assistance, please do not hesitate to contact me at 973-249-5505.

Sincerely,

Sue Syvret
